DETAILED ACTION

1. This is regarding the Response after Final Rejection, and Remarks, filed 11/21/2006. Claims 1 – 46 are pending in this Application, while claims 20 – 46 have been withdrawn from consideration.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. This application is in condition for allowance except for the presence of claims 20 - 46 directed to an invention non-elected without traverse. Accordingly, claims 20 – 46 have been cancelled.

Allowable Subject Matter

4. Claims 1 – 19 are allowed.

5. The following is an examiner's statement of reasons for allowance: Applicant's arguments in their Remarks filed 11/21/2006 are persuasive. Prior art does not teach, or fairly suggest, the claimed limitations that include, among other limitations, a speed sensing circuit that is **selectively coupled** to a **capacitive load** for characterizing a layer of an interconnect structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
